Very disappointing. Dated graphics, poorly implemented dialog system, simplistic combat, over simplified world map. The main reason I didn't get very far in the game is that it was just too dull.. Fun and nice game. Quite some challenge, depth and fun into it. The biggest con is that certain missions are too random or bugged. I regard to Mission: Reorganisation and Mission: Poor Harvest. Avoid those. The most fun you can have in this game is going sandbox mode and do it at your own pace.

So pick up the game and go conquer the Hanseatic world!. Awesome little look at what we still have in store as early vr adopters on pc. Must watch!. DO NOT Buy for more than 50p - £1.50 you get 30 miles of Welsh mainline track. you cannot play it in free roam. all you get is Cardiff Central Station - Newport - the River Severn. there is next to nothing Coastal about this Addon. and extremely little in the way of South Wales come to that!!

please head my advice, there is no train track to Barry, Pencoed, Bridgend, Port Talbot. Swansea, Mumbles, Maesteg. or any other valley inbetween.

what you do get is dismal, ripped off at more than £1.50, Career only Play. and very few missions at that.

My Advice is to avoid this like the Plague unless newer reviews state that the developer has actually created more content than this.

. Very fast paced and unique arcade shooter. It kind of works like tempest but with full 3D levels and models. You kill bugs and collect money/upgrades. There is also a really awesome 90s techno OST blasting out of the headphones while playing.. If anyone is wondering music is made by Hinkik. Cheers and enjoy the music. Great game really fun and its not violent. If you have a few dollars to spare I would highly recommend getting the bundle. I hope this review helps.. Monster Garden is sort of a weird place, but a genuinely happy one. This game is not a "be a hero, get all the items" quest, it's a short and super friendly experience that doesn't really compare to any other games I've played. It feels personal, and different, and it really deserves the indie term for itself, rather than just because of who developed it.

Very nice game!

I had the feeling i was playing a game on an old console,

You can use different weapons, upgrade skills,

some enemies they respawn but you and your guns are going to love every enemy on your path just for the chance to shoot

<https://www.youtube.com/watch?v=haKbOiLVYm0>. Bought it because developers promised Linux\Mac OS X version. They never released it.

They also stop support of game and there of number of unfixed bugs in WIndows version.

Don't buy it.. A little under 3 hours of puzzle-solving gameplay with stunning graphics and soundtrack: I thoroughly enjoyed this game.. Cute, fun, enjoyable and cheap. What else do you want? Buy it.. I adored "The Lost Crown" and cannot wait for "Blackenrock" to come out. "Midnight Horror" is something I highly recommend, but only for people in the same position.. This game is great fun (Not so much for those who have a fear of Spiders, Snakes etc LOL) Definitely a game to share with the family and friends.. Half the fun is seeing other peoples reaction.

I managed to survive both levels without letting go of the Key on the Keyboard. Not really much in the way of cheap Jump-Scares either. Great concept, short, cheap and fun for everyone!

If you wanna see how I reacted towards the game.. You can watch my Let's Play here and see for yourself if you would like to buy the game!

<https://www.youtube.com/watch?v=8hIKbHNDVgo>. Options are very limited, and the length is much shorter compared to most CYOA, but it's still a pretty fun experience, and it leaves enough ambiguous about the world to leave room for imagination.
